Inclusion
(2018)

"In these Awards we saw propositions spanning from more 'traditional' sub-sectors like investment management to new and exciting areas like blockchain, AI, and even FuelTech. We are very excited to see further developments, both in the futures of our competitors and winners, and also in Fintech generally as the digital transformation continues to mature."

Georges Bock
Head of Tax, KPMG

"The list of the 15 semi-finalists is of great quality, as is the diversity of the activity sectors represented. They geographically demonstrate the international dimension of the Awards and the indisputable appeal of Luxembourg as a Fintech hub."

Nasir Zubairi
CEO of the LHoFT
